It is well known that only the proper conditions can promote significant creations, development and expansion.

While designing our products, we always think about the needs of our clients and constantly changing market expectations.

Furniture from MDD is characterized not only by the high-class technology, superb quality and contemporary design. It is also a large diversity of products with ergonomic qualities, which create perfect working conditions for the direct users. Becoming a leader and sustaining a leadership position in the office furniture sector has always been the mission of the company. We are the biggest Polish manufacturer in terms of workplaces being produced and one of the Europe's leading producers in the reception furniture branch. Our effective operation cycle and complex customer service are appreciated in Europe, USA and GCC-countries.

DRIVE

DRIVE bench gives the opportunity of quick and easy adjusting to individual needs without compromising on functionality and space. Each work counter has its own individual mechanism which works independently. DRIVE bench can be equipped with fabric panels to divide a work surface for more privacy. Dividing the work surface does not, in any way, reduce the access to the horizontal cable management underneath the work top.

DRIVE is an electric height regulation desks which allows for customized standing and sitting positions and is a great ergonomically solution. The electrical height regulator, located underneath the work surface, simplifies changes in positions depending on one's office needs. Changing position during long working hours increases work effectiveness, productivity and health. To create an intimate climate, DRIVE allows you to add acoustic panels. There are two types of acoustic panels which fit perfectly both horizontally and vertically to the worktop.

YAN_Z

YAN_Z

YAN promotes interaction when employees spend time in teams and allows for privacy when needed. YAN meets office demands by improving performance and customer satisfaction. Thanks to its coherent attributes you can organize your office and reinvent a creative and functional space.

YAN is a simple yet multi-functional system which blends well into an office space arrangement. Its flexibility allows for a quick response to different office work requirements. Sliding desk tops give easy access to cable management. Distinctive panel designs enable to build an office of a particular character.

YAN_Z

YAN has been designed to offer the possibility of combining different components into a multi functional office layout. Tambour or sliding door storages, high or desk level can be used as an end element. Different height and functionality pedestals may act as both dividing or finishing section; individual or team storage.

OGI_N

The system is complemented by freestanding SONIC screens perfect for larger office spaces. Those free standing panels can be used as workspace dividers. Thanks to their high sound absorption levels, SONIC panels are great at noise reduction. The same sound absorbing technology is used for both high freestanding screens as well as desk panels.

OGI offers a wide selection of pedestals, desk storages, tambour or sliding door cabinets which can be arranged around desks to build separate areas.

Smart storage solutions give more flexibility and save office space. Other than the normal function, high storages can act as dividers for greater privacy, whereas storages with desk height create extra work space.

OGI_U

Both independent as well as integrated workstations can share matching worktops to unify office look. The desktop sizes offer excellent ergonomic capabilities - substantial workspaces, room for documents, keyboard, monitor, phone, and anything else needed in a modern office environment. Multiple bench combinations share common leg as a linking element to save space underneath a desk offering an ultimate comfort.
